## OEM&ODM Custom Disposable cup

**EVER GREATER**  
Together, We are GREATER

We offer customization  
to meet your individual needs.

A good design and color scheme help customers to remember your business, and also empowers them to spread your brand. Great printing maintains the excellence of your brand (and in some cases can even improve it).

Unfortunately, the opposite is also true—poor quality presentation can give the impression that your products are low quality too.

We feel you! But what would you think if we told you Ever Greater® could offer you a great price on great printing in China with no communication problems—every time! We think you'd say, "Yes, please!"

Here is a quick glance at our compliance structure; we like to call it a Reliability Audit. Even if you choose to work with another provider, then this list can still help you find a reliable partner.
